2. ACCOUNTING POLICIES

2.1 BASIS OF PREPARATION

These financial statements have been prepared in accordance with International Financial Reporting Standards (“**IFRSs**”) (which include all International Financial Reporting Standards, International Accounting Standards (“**IASs**”) and Interpretations) issued by the International Accounting Standards Board (“**IASB**”) and the disclosure requirements of the Hong Kong Companies Ordinance. They have been prepared under the historical cost convention, except for investment properties and financial assets at fair value through profit or loss which have been measured at fair value. These financial statements are presented in Renminbi (“**RMB**”) and all values are rounded to the nearest thousand except when otherwise indicated.

Going concern basis

During the year ended 31 December 2023, the Group recorded a net loss of RMB985,538,000 for the year ended 31 December 2023. As at 31 December 2023, (i) the Group's total bank and other borrowings and senior notes amounted to RMB7,085,601,000, out of which RMB4,944,251,000 will be due for repayment within the next twelve months, while its cash and cash equivalents amounted to RMB1,311,364,000; (ii) the Group had not repaid an aggregate principal amount of RMB860,104,000 for certain senior notes according to their scheduled repayment dates; (iii) an aggregate principal amount of RMB712,000,000 for certain interest-bearing bank and other borrowings had not been repaid according to their scheduled repayment dates; (iv) failure to repay certain senior notes and certain interest-bearing bank and other borrowings resulted in a total amount of RMB1,070,851,000 of certain interest-bearing bank and other borrowings becoming repayable on demand.

The above conditions indicate the existence of material uncertainties which cast significant doubt over the Group's ability to continue as a going concern. In view of such circumstances, the Directors have undertaken a number of plans and measures to improve the Group's liquidity and financial position, including the following:

- (i) The Group will appoint financial advisors to assist it with a holistic restructuring of its senior notes, in order to reach a consensual solution with all the stakeholders as soon as practicable;
- (ii) The Group has been actively negotiating with the Group's existing lenders to seek renewal or extension for repayment of the Group's bank and other borrowings;
- (iii) The Group has been actively negotiating with several financial institutions to obtain new loans at a reasonable cost for ensuring delivery of its property projects under development;
- (iv) The Group will continue to seek other alternative financing and borrowings to finance the settlement of its existing financial obligations and future operating and capital expenditures;
- (v) The Group has prepared a business strategy plan focusing on the acceleration of the sales of properties;
- (vi) The Group has implemented measures to speed up the collection of outstanding sales proceeds and effectively control costs and expenses; and

- (vii) The Group will continue to seek suitable opportunities to dispose of its equity interests in certain project development companies in order to generate additional cash inflows.

The Directors have reviewed the Group's cashflow projections prepared by management, which cover a period of twelve months from 31 December 2023. They are of the opinion that, taking into account the above-mentioned plans and measures, the Group will have sufficient working capital to finance its operations and meet its financial obligations as and when they fall due within the following twelve months from 31 December 2023. Accordingly, the Directors are satisfied that it is appropriate to prepare the consolidated financial statements of the Group for the year ended 31 December 2023 on a going concern basis.

Notwithstanding the above, significant uncertainties exist as to whether the management of the Group will be able to implement the aforementioned plans and measures as described above. Whether the Group will be able to continue as a going concern will depend upon the Group's ability to generate adequate financing and operating cash flows through the following:

- (i) successfully complete the holistic restructuring of its senior notes;
- (ii) successfully negotiate with the Group's existing lenders for the renewal or extension for repayment of the Group's bank and other borrowings;
- (iii) successfully secure project development loans for qualified project development;
- (iv) successfully obtain additional new sources of financing as and when needed;
- (v) successfully carry out the Group's business strategy plan including the acceleration of the sales of properties;
- (vi) successfully implement measures to speed up the collection of outstanding sales proceeds and effectively controlling costs and expenses; and
- (vii) successfully dispose of the Group's equity interests in project development companies when suitable.

Should the Group be unable to operate as a going concern, adjustments may have to be made to write down the carrying values of assets to their recoverable amounts, to provide for any further liabilities which might arise, and to reclassify non-current assets and non-current liabilities as current assets and current liabilities, respectively. The effect of these adjustments has not been reflected in the consolidated financial statements.

Basis of consolidation

The consolidated financial statements include the financial statements of the Company and its subsidiaries (collectively referred to as the “**Group**”) for the year ended 31 December 2023. A subsidiary is an entity (including a structured entity), directly or indirectly, controlled by the Company. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee (i.e., existing rights that give the Group the current ability to direct the relevant activities of the investee).

Generally, there is a presumption that a majority of voting rights results in control. When the Company has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- (a) the contractual arrangement with the other vote holders of the investee;
- (b) rights arising from other contractual arrangements; and
- (c) the Group’s voting rights and potential voting rights.

The financial statements of the subsidiaries are prepared for the same reporting period as the Company, using consistent accounting policies. The results of subsidiaries are consolidated from the date on which the Group obtains control, and continue to be consolidated until the date that such control ceases.

Profit or loss and each component of other comprehensive income are attributed to the owners of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control described above. A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction.

If the Group loses control over a subsidiary, it derecognises the related assets (including goodwill), liabilities, any non-controlling interest and the exchange fluctuation reserve; and recognises the fair value of any investment retained and any resulting surplus or deficit in profit or loss. The Group's share of components previously recognised in other comprehensive income is reclassified to profit or loss or retained profits, as appropriate, on the same basis as would be required if the Group had directly disposed of the related assets or liabilities.

2.2 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES

The Group has adopted the following new and revised IFRSs for the first time for the current year's financial statements.

IFRS 17

Amendments to IAS 1 and
IFRS Practice Statement 2

Amendments to IAS 8

Amendments to IAS 12

Amendments to IAS 12

The nature and the impact of the new and revised IFRSs that are applicable to the Group are described below:

- (a) Amendments to IAS 1 require entities to disclose their material accounting policy information rather than their significant accounting policies. Accounting policy information is material if, when considered together with other information included in an entity's financial statements, it can reasonably be expected to influence decisions that the primary users of general purpose financial statements make on the basis of those financial statements. Amendments to IFRS Practice Statement 2 *Disclosure of Accounting Policies* provide non-mandatory guidance on how to apply the concept of materiality to accounting policy disclosures. The Group has disclosed the material accounting policy information in notes to the financial statements. The amendments did not have any impact on the measurement, recognition or presentation of any items in the Group's financial statements.

- (b) Amendments to IAS 8 clarify the distinction between changes in accounting estimates and changes in accounting policies. Accounting estimates are defined as monetary amounts in financial statements that are subject to measurement uncertainty. The amendments also clarify how entities use measurement techniques and inputs to develop accounting estimates. Since the Group's approach and policy align with the amendments, the amendments had no impact on the Group's financial statements.
- (c) Amendments to IAS 12 *Income Taxes* narrow the scope of the initial recognition exception in IAS 12 so that it no longer applies to transactions that give rise to equal taxable and deductible temporary differences, such as leases and decommissioning obligations. Therefore, entities are required to recognise a deferred tax asset (provided that sufficient taxable profit is available) and a deferred tax liability for temporary differences arising from these transactions. Early application is permitted.

The Group has early adopted the amendment on 1 January 2019 and has determined the temporary differences arising from right-of-use assets and lease liabilities separately, which have been reflected in the reconciliation disclosed in notes to the financial statements. However, they did not have any material impact on the overall deferred tax balances presented in the consolidated statement of financial position as the related deferred tax balances qualified for offsetting under IAS 12.

- (d) Amendments to IAS 12 *Income Taxes* introduce a mandatory temporary exception from the recognition and disclosure of deferred taxes arising from the implementation of the Pillar Two model rules published by the Organisation for Economic Co-operation and Development. The amendments also introduce disclosure requirements for the affected entities to help users of the financial statements better understand the entities' exposure to Pillar Two income taxes, including the disclosure of current tax related to Pillar Two income taxes separately in the periods when Pillar Two legislation is effective and the disclosure of known or reasonably estimable information of their exposure to Pillar Two income taxes in periods in which the legislation is enacted or substantively enacted but not yet in effect. The Group has applied the amendments retrospectively. Since the Group did not fall within the scope of the Pillar Two model rules, the amendments did not have any impact to the Group.

3. OPERATING SEGMENT INFORMATION

For management purposes, the Group is organised into business units based on their products and services and has three reportable operating segments as follows:

- | | | |
|-----|--|---|
| (a) | Property development; | Development and sale of properties and project management |
| (b) | Commercial property investment and operations; | Property leasing |
| (c) | Hotel operations. | Hotel operations |

Management monitors the results of the Group's operating segments separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on reportable segment profit/loss, which is a measure of adjusted profit/loss before tax. The adjusted profit/loss before tax is measured consistently with the Group's profit before tax except that interest income, finance costs as well as head office and corporate expenses are excluded from such measurement.

Segment assets exclude unallocated head office and corporate assets as these assets are managed on a group basis.

Segment liabilities exclude unallocated head office and corporate liabilities as these liabilities are managed on a group basis.

The Group's operations are mainly conducted in Chinese Mainland. Management considered that there is no reportable geographic segment as all revenues from external customers are generated in Chinese Mainland and the Group's significant non-current assets are located in Chinese Mainland.

9. LOSS PER SHARE ATTRIBUTABLE TO ORDINARY EQUITY HOLDERS OF THE PARENT

10. TRADE RECEIVABLES

	2023 <i>RMB'000</i>	2022 <i>o</i>
Trade receivables	<u>41,332</u>	<u>40,867</u>

Trade receivables mainly represent rentals receivable from tenants. The Group seeks to maintain strict control over its outstanding receivables. Overdue balances are reviewed regularly by management. In view of the aforementioned and the fact that the Group's trade receivables relate to a large number of diversified customers, there is no significant concentration of credit risk.

Property buyers are generally granted credit terms of 1 month to 1 year. Trade receivables are unsecured and non-interest-bearing. The carrying amounts of trade receivables approximate to their fair values. An ageing analysis of the trade receivables as at the end of the reporting period, based on the invoice date, is as follows:

	2023 <i>RMB'000</i>	2022 <i>o</i>
Less than 1 year	29,034	38,766
Over 1 year	12,298	2,101
Total	<u>41,332</u>	<u>40,867</u>

Receivables that were neither past due nor impaired relate to a large number of diversified customers for whom there was no recent history of default.

The Group applies the simplified approach to provide for expected credit losses prescribed by IFRS 9, which permits the use of the lifetime expected credit loss provision for all trade receivables. To measure the expected credit losses, trade receivables have been grouped based on shared credit risk characteristics and the days past due. The expected loss rate of trade receivables is assessed to be 0.1%. Based on the evaluation on the expected loss rate and the gross carrying amount, the Directors are of the opinion that the expected credit losses in respect of these balances are immaterial, and therefore, no provision has been made for a loss allowance.

11. TRADE AND BILLS PAYABLES

An ageing analysis of the trade and bills payables as at the end of each reporting period, based on the invoice dates, is as follows:

Net Gearing Ratio

The net gearing ratio (as calculated by total borrowings, including interest-bearing bank and other borrowings, less cash and bank balances divided by total equity as at the end of the respective period) was approximately 1.93 times as at 31 December 2023 (31 December 2022: approximately 0.99 times). The increase in the net gearing ratio as at 31 December 2023 was mainly due to the decrease in net assets.

Credit Risk

The Group is exposed to credit risk in relation to its trade and other receivables and cash deposits with banks. The carrying amounts of trade and other receivables, restricted cash, cash and cash equivalents represent the Group's maximum exposure to credit risk in relation to financial assets. To manage this risk, deposits are mainly placed with licensed banks which are all high-credit-quality financial institutions.

The Group has no significant concentrations of credit risk in view of its large number of customers. The credit risk of the Group's other financial assets, which mainly comprise restricted cash and pledged deposits, other receivables, and amounts due from related companies, arises from default of the counterparty, with a maximum exposure equal to the carrying amounts of these instruments. The Directors do not expect any significant losses from non-performance of these counterparties.

Liquidity Risk

The Group aims to maintain sufficient cash through internally generated sales proceeds and an adequate amount of committed credit facilities to meet its operation needs and commitments in respect of property projects. The objective of the Group is to maintain a balance between continuity of funding and flexibility through the use of interest-bearing bank and other borrowings. The Group reviews its liquidity position on an ongoing basis, including review of the expected cash inflows and outflows, pre-sales/sales results, maturity of its borrowings and the progress of the planned property development projects in order to monitor its liquidity requirements in the short and long terms.

The Group has established a set of liquidity risk management measures, including budgeting, prudent land acquisition decisions, stringent cost control and alternative financing channels. Through these liquidity risk management measures, the Group aims to maintain sufficient reserves of, and adequate committed lines of funding from, financial institutions to meet the Group's liquidity requirements in the short and long term.

Foreign Exchange Risks

The Group mainly operates its business in the PRC, and substantially all of its revenue and expenses are denominated in RMB. As at 31 December 2023, among the Group's cash at bank and on hand and senior notes, RMB0.1 million and RMB860.1 million, was denominated in US dollars, respectively, such amount was subject to the exchange rate fluctuation. The Group does not have any policy to hedge against foreign exchange risk. However, the Group will closely monitor its foreign exchange exposure, and strive to maintain the value of the Group's cash.

Interest Rate Risk

The Group's exposure to changes in market interest rate relates primarily to the Group's interest-bearing bank and other borrowings. The Group does not use financial derivatives to hedge interest rate risk, and use variable rate bank borrowings and other borrowings to manage its interest cost.

Pledge of Assets

As at 31 December 2023, certain of the Group's bank and other borrowings are secured by the pledges of the Group's assets with carrying values of approximately RMB12,349.91 million (31 December 2022: approximately RMB16,119.1 million) which include (i) property, plant and equipment; (ii) land use right; (iii) investment properties; (iv) properties under development; and (v) completed properties held for sale.

Contingent Liabilities

The Group provides mortgage guarantees to banks in respect of the mortgage loans they provided to the Group's customers in order to secure the repayment obligations of such customers. The mortgage guarantees are issued from the date of grant of the relevant mortgage loans and released upon the earlier of (i) the transfer of the relevant real estate ownership certificates to the customers, or (ii) the settlement of mortgage loans by the customers. If a purchaser defaults on the mortgage loan, the Group is typically required to repurchase the underlying property by paying off the mortgage loan. If the Group fails to do so, the mortgagee banks will auction the underlying property and recover the balance from the Group if the outstanding loan amount exceeds the net foreclosure sale proceeds. In line with industry practice, the Group does not conduct independent credit checks on its customers but rely on the credit checks conducted by the mortgagee banks.

The following table sets forth the Group's total guarantees as at the dates indicated:

	As at 31 December	
	2023	2022
	<i>(RMB'000)</i>	<i>o</i>

EXTRACT OF INDEPENDENT AUDITOR'S REPORT

The following is an extract of the independent auditor's report from Ernst & Young, the auditor of the Company:

Disclaimer of opinion

We were engaged to audit the consolidated financial statements of Leading Holdings Group Limited (the "**Company**") and its subsidiaries (the "**Group**"), which comprise the consolidated statement of financial position as at 31 December 2023, and the consolidated statement of profit or loss, the consolidated statement of comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

We do not express an opinion on the consolidated financial statements of the Group. Because of the potential interaction of the multiple uncertainties relating to going concern and their possible cumulative effect on the consolidated financial statements as described in the Basis for Disclaimer of Opinion section of our report, it is not possible for us to form an opinion on the consolidated financial statements. In all other respects, in our opinion, the consolidated financial statements have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

BASIS FOR DISCLAIMER OF OPINION

Multiple uncertainties relating to going concern

As set out in note 2.1 to the consolidated financial statements, the Group recorded a net loss of RMB985,538,000 for the year ended 31 December 2023. (i) As at 31 December 2023, the Group's total bank and other borrowings and senior notes amounted to RMB7,085,601,000, out of which RMB4,944,251,000 will be due for repayment within the next twelve months, while its cash and cash equivalents amounted to RMB1,311,364,000; (ii) the Group had not repaid an aggregate principal amount of RMB860,104,000 for certain senior notes according to their scheduled repayment dates; (iii) an aggregate principal amount of RMB712,000,000 for certain interest-bearing bank and other borrowings had not been repaid according to their scheduled repayment dates; (iv) failure to repay certain senior notes and certain interest-bearing bank and other borrowings resulted in a total amount of RMB1,070,851,000 of certain interest-bearing bank and other borrowings becoming repayable on demand. These conditions, together with other matters disclosed in note 2.1 to the financial statements, indicate the existence of material uncertainties which cast significant doubt on the Group's ability to continue as a going concern.

The directors of the Company have been undertaking measures to improve the Group's liquidity and financial position, which are set out in note 2.1 to the consolidated financial statements. The validity of the going concern assumption on which the consolidated financial statements have been prepared depends on the outcome of these measures, which are subject to multiple uncertainties, including whether the Group can: (i) successfully complete the holistic restructuring of its senior notes; (ii) successfully negotiate with the Group's existing lenders for the renewal or extension for repayment of the Group's bank and other borrowings; (iii) successfully secure project development loans for qualified project development; (iv) successfully obtain additional new sources of financing as and when needed; (v) successfully carry out the Group's business strategy plan including the acceleration of the sales of properties; (vi) successfully implement measures to speed up the collection of outstanding sales proceeds and effectively control costs and expenses; and (vii) successfully dispose of the Group's equity interests in project development companies when suitable.

As a result of these multiple uncertainties, their potential interaction, and the possible cumulative effect thereof, we were unable to form an opinion as to whether the going concern basis of preparation is appropriate. Should the Group fail to achieve the above-mentioned plans and measures, it might not be able to continue to operate as a going concern, and adjustments would have to be made to write down the carrying values of the Group's assets to their recoverable amounts, to provide for any further liabilities which might arise, and to reclassify non-current assets and non-current liabilities as current assets and current liabilities, respectively. The effects of these adjustments have not been reflected in the consolidated financial statements.
